## Guaranteed To Pass® Emissions Test Formula & Complete Fuel System Cleaner

### Guaranteed to Pass® Emissions Test Formula & Complete Fuel System Cleaner

Pass your emissions test or double your money back! Powerful emulsifiers super-clean the fuel system, reducing emissions. Maximum allowable chemistry restores fuel system to like-new condition. Increases MPG.

05063 12 fl. oz.

### BEFORE G2P / AFTER G2P Intake Valve:

Reduces CO, HC and NOx emissions, as well as need for expensive high octane fuel.

Cleans intake valve deposits and combustion chambers for easier starts, faster acceleration and better airflow.

Cleans fuel injectors to increase mileage, power and reduce hesitation.

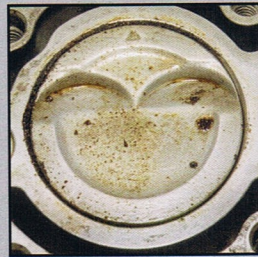

Restores fuel system to like new clean in one tankful.

Removes harmful gum and varnish from carburetor and emission control components.

Newest technology with maximum allowable cleaning chemistry for superior results.

Works in all ethanol/gasoline fuels.

### Piston / Combustion Chamber:

### Stor-X® Fuel Stabilizer

Super-concentrated formula keeps fuel fresh up to one year. Stabilizes fuel by inhibiting varnish, peroxide and gum development in gasoline and diesel fuel during storage.

402815 8 fl. oz.

### Fuel Injector & Carburetor Cleaner

Cleans dirty fuel injectors and carburetors. With regular use, eliminates hard starts, rough idling, dieseling, engine run-on, knocks, pings and excessive emissions.

05061 12 fl. oz.

### Premium Fuel Injector Cleaner

Meets BMW fuel injector cleaning specifications. Prevents rust and corrosion. Reduces the need for high octane fuels.

05062 12 fl. oz.

### Super Turbo™ Fuel Injector Cleaner

Increases power and acceleration, cleans fuel injectors, improves fuel economy and reduces knocking. Disperses water. Reduces harmful emissions.

402111 12 fl. oz.

### Octane Boost & Lead Substitute

Increases horse-power and torque while adding lubricity to the fuel system. Protects against valve recession. Decreases NOx and carbon monoxide emissions.

05077 12 fl. oz.

### Gas Line Anti-Freeze

Methanol-based formula. Prevents fuel line freezing and inhibits rust and corrosion. Safe for use in fuel injected and carbureted vehicles.

05342 12 fl. oz.

### CRC For Gas Tanks (Isopropanol)

Removes water from gasoline and protects fuel to -50°F. Inhibits rust in fuel tank and prevents fuel line freezing. Assures quicker starting and faster pick-up. Recommended use: 3-4 times a year.

05343 12 fl. oz.
